### OHA 276.23 Pierce Collection

**Accession Number:** 2022.0023

**Date of Records:** 1893-2018

**Size:** 6 box, 4.25 linear feet

**Finding aid by:** Trenton Streck-Havill (2023)

**Access and Use:** The Otis Historical Archives is committed to providing open access to its collections as far as possible within the limits of privacy and confidentiality. Access to this collection is at the discretion of the Otis Historical Archives and material contained within the records may be subject to review before access is granted.

**Restrictions:** This collection is unrestricted.

**Condition:** No issues.

**Biographical Notes:** Retired U.S. Army Colonel (Dr.) John R. Pierce was a pediatrician and neonatologist for 30 years. He completed the last 15 years of his career at Walter Reed Army Medical Center (WRAMC). He served seven years as a consultant in pediatrics to the surgeon general, after which he was chief of the Department of Pediatrics, and then deputy commander for Clinical Services at WRAMC. After retirement from the Army, he worked at the Department of Veterans Affairs for more than 12 years. He co-authored a book about Major Walter Reed and his work on yellow fever published by John Wiley and Sons in 2005 and was the lead editor on a book about the centennial of WRAMC published by the Borden Institute in 2009. He was the first Vice President for the Walter Reed Society, and in 2022, he served as the informal Walter Reed Society historian.

**Series/Scope and Content Notes:** This collection consists of numerous photographs, brochures, pamphlets, programs, and documents related to the history of the Army Medical Corps, with an emphasis on Walter Reed Army Medical Center (WRAMC). Other materials concerning DeWitt Army Hospital, Fort Belvoir Community Hospital, Fitzsimons Army Medical Center, and the National Naval Medical Center are also included in the collection. However, a majority of materials concern Walter Reed General Hospital and its successor institutions (Walter Reed Army Medical Center, Walter Reed National Military Medical Center). The collection also contains Army School of Nursing annuals/yearbooks as well as the Alumnae Journal. These volumes cover the years 1921 to 1950, though not all years are represented.

**Arrangement Note:** Material has been rehoused from binders, with all materials being kept in approximate order as dictated by the donor. Beginning material has been arranged chronologically, with supplemental materials coming at the end of Series 001, even when date of material is known and would be arranged earlier in the order.
