

# Brain Injury Awareness Month

## SCIENCE CAFÉ

AT THE

NATIONAL  
MUSEUM  
OF HEALTH AND  
MEDICINE

Thursday, March 23, 2023, 6-7 p.m. ET

Military TBI: The History, Impact, and  
Future

Traumatic brain injuries are known as the "signature wound" of the Global War on Terrorism. Over the last 20 years, the Department of Defense invested resources and manpower to study and treat service member TBIs, leading to the establishment of what is now the Defense Health Agency Traumatic Brain Injury Center of Excellence. Join us to hear from Megan A. Lindberg and Elisabeth M. Moy Martin of TBICoE as they take a historical approach showcasing the evolution of TBI clinical care, starting with the American Civil War and leading up to the GWOT. They will also discuss congressional mandates directing and prioritizing research efforts to result in best practices from health care providers. Museum staff members will display related collection items prior to the start of the program.
