

Headaches and TBIs: The Evolution of Medication

A Virtual Science Café by the Traumatic Brain Injury Center of Excellence

Thursday, March 28, 11 a.m. – On Facebook @MedicalMuseum

Join Dr. Joanne Gold, a pharmacist and neuroscience clinician with the Traumatic Brain Injury Center of Excellence, and museum experts, for a conversation about the treatment of headaches, past and present. We will explore the museum's collections related to TBI and headache treatment, discuss ways to improve headache treatment, and highlight relevant TBICoE resources.
