

NMHM Science Café

Transforming TBI Detection

A Virtual Science Café by the Traumatic Brain Injury Center of Excellence

Friday, March 28, 11 a.m. — On Facebook @MedicalMuseum

Join NMHM and subject matter experts from the Traumatic Brain Injury Center of Excellence as we discuss the latest advances in TBI diagnostic devices and their impact on clinical decision-making. Attendees will be guided through topics such as FDA-cleared diagnostic tools, military-specific considerations, and future innovations in TBI care.
